

Desafio - Troubleshooting

You're the network administrator of a big company, users are complaining that they can't access the internal web server. Your task is to use the proper show commands to find and troubleshoot the issue.

The network: <https://drive.google.com/open?id=0BzmYQVmw4W7ndjZxLWQ2Q2J6djA> (<https://drive.google.com/open?id=0BzmYQVmw4W7ndjZxLWQ2Q2J6djA>)

(Você precisará do Packet Tracer para esse exercício)

Obs: Caso você ainda não tenha instalado o Packet Tracer, poderá encontrar os passos nesse link:
