

Sound Design Tools is an extensive free library of foley sounds, futuristic sound effects, glitch samples and drum loops created by Gavin Thibodeau aka Embra. From the sound of hydraulic engines and ice crackles to noisy dubstep loops and abstract sonic textures, this free sound collection features 360 high quality samples for your sound design and music production endeavors.

Gavin Thibodeau is a sound designer based in Stafford, USA. He worked on this sample library for more than six months, using Ableton Live and a range of 3rd party sound design tools. You can take look at his [SoundCloud](#) page to check out some of his recent music releases.

The library contains one Reaktor sample map for the sounds in the Diverse Sounds folder. An updated of the library will be released soon, with additional mappings.

Contents

360 audio samples (24-bit WAV)

NI Reaktor sample map (MAP)

211 MB of audio material on disk

LICENSE
